SEG Truss

Product Advantages

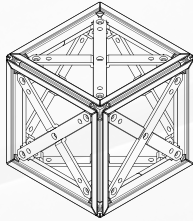

As the new type environmental-friendly system
SEG Foldable Truss

1. Aluminum alloy with reinforced nylon surface
2. Matte texture, strong abrasive resistance
3. Convenient to install and save time
4. Saving transport volume and labor cost
5. Flexible size choice from 30cm to 210cm (every 30cm unit increasing)

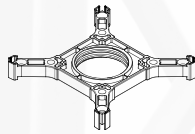

Basic functional accessories

The use of multi-functional accessories makes the shape of the booth flexible, convenient and quick to install, and can meet various construction needs. Make the booth design more flexible.

Straight module

Modular & Lightweight

Our display features a lightweight aluminum surface with a nylon finish, perfect for exposure environments. It can be folded for easy transportation, reducing weight and size compared to traditional truss systems. With multi-dimensional connectors, including straight and curved sections, you can create unique and personalized configurations.

Basic Function Parts

Revamp your booth with the original installation mode of SEG - now with added neon lights for a dazzling and cool effect. This sleek design will make your booth shine and stand out from the rest.
